Le barycentre

L'ensemble des point M qui vérifient

$$\| \overrightarrow{MA} + \overrightarrow{MB} + \overrightarrow{MJ} \| = \| 2\overrightarrow{MC} - 2\overrightarrow{MA} \|$$

In particular, it serves to demonstrate that "3-point isobaricenter" their center of gravity. There are many resources for students who want to fill their gaps in mathematics and consider a steady progression. Using Chasles' relationship: From where: (E) \vec{A} therefore the sphere of center G and radius Example nA^2 In the space referred to the orthonorate reference point: Consider points A (1; 2; -1), B (0; 2; 1) and C (3; -2; 2) Mutually: Any point to the right (AB) can be written as the center of gravity of A and B. Mathovore allows you to review online and progress in mathematics throughout school. Documents similar to the center of gravity: first-class math courses to be downloaded or printed free in PDF with all math courses from college to high school and post-graduate drawn up by teachers of national. Let's call it G. Determine the nature and the characteristic elements of set(S) of the M points of space as: With G bar (A; (B) (2) (C) -1), for any M point in space: (E) \vec{A} the orthogonal plane (AB) passing through G. * O G bar (A; (a) (B) (b) (c) (c) 2A° Coordinates of center of gravity: Consider the space referred to the orthonorate reference point: O G bar (A; (a) (B) (b) (c) (c) Download and print this PDF document for free You have the option to download and print this document for free "The Center of Gravity: Mathematics course in first degree" in PDF format. For any M point in space: So especially taking M = A: The vectors are coplanar, so G belongs to the plan (ABC). Notes (1) The coefficients are defined at a close multiple, i.e. for each real k: G bar (A; ka) (B; (kb) (C) kc) = G bar (A; (a) (B) (b) (C) (c) Then, the center of gravity of the system (A; (a) (B) (b) (atazzillitu otlom "À Ateirporp atseuQ atoN jc+b;I) ja -A(rab G idniuu 0 = c+b+a :azneugesnoc ID :C = M rep eralocitrap ni idniuu :oizaps olled M otnup isaislaup rep idniuu jc ;C(;b ;B(;a ;A(rab G enoizartsomid otterroc ous li ah izicrese itsequ id onungo e erovoltaM us ilibinopsid acitametam id izicrese id aialigim us ivodhaticrese jenoizantso , Ateirporp, enoizinfied(inoizel esrevid elled otunetnoc li otisiugca reva id etacifireV, enilno acitametam id otacualaccab led itterroc itteggos us isratircese onnartop onna omiluailed innula ilg rep emoc "Asoc enilno acitametam id otteverb li eredevir onnartop eratneleme azret id innula ilg .S amirp ni acitametam id isroc :ortnecriab led amet lus izicrese de isroc ia atnuigga ni .C e B .A id ortnecriab emoc ottircs resse "Aup)CBA(onaip led otnup isaislaup :etmemasrevni)BA(artsed alla idniuu enetrappa G otnup II .A = M odnednerp eralocitrap ni ,idniuu :oizaps ollen M otnup isaislaup reP .J2 ;2 :3(C e)1 ;2 ;0(B ,)1- ;2 ;1(A itnup i onaredisnoc iS :otamronro otnemirefir id otnup la ovitaler oizaps olleN 3 °An oipmesE .)b ;B(ja ;A(rab G O * :ortnecriab led enoizoP "AA1 :ezneugesnoc :oizaps olled M otnup isaislaup reP)c ;C(;b ;B(;a ;A(rab G o :elatnemadnof AteirporP ortnecriab led AteirporP /2 .)IG(otnemges led onaidem onaip li euqnod "À)E(.S amirp ni acitametam id osroc :ortnecriab la ilimis edehcs ertla .I id e G id itnatsidiuqe itnup ied emeisiñal "À)E(:ah is oizaps olled M otnup ingo rep idniuu e B e A id ortnecriabosiñal "À I .orez I À non itneiciffeoc ied ammos al :1 osaC :isac eud ilibissop onoS :opit led ilairottev emmos errudir id Atissecen alla etnorf id osseps avort is ic ,itnup id tes id acrecir id izicrese ilgeN ilairottev emmos id enoizuidiR /3 .orez "À itneiciffeoc ied ammos al :2 osaC)e ; Show à € à € à € à € " a point a right.
